The Student Satisfaction Survey was positive in almost all the aspects. Majority of the students have said they are highly satisfied with the quality of teaching, curriculum delivery, academic advice provided, access to teaching faculty, academic reputation of the college, availability of technology to enhance learning, assessment process, campus safety and the feedback system.

The satisfaction is very high in aspects of student safety and campus safety. Overall satisfaction is high in most of the students.

However, a small percentage has expressed dissatisfaction with the canteen facilities and sports and recreational facilities and this need to be looked into and addressed in the coming years.
