

BCA with Data Analytics From IoA UK

BCA with Data Analytics

BCA with Data Analytics is a three-year Undergraduate programme by the Institute of Analytics (IoA), UK. The programme is designed to meet a growing need for graduates with a sound education in business and the specialist skills to help organisations understand their customers, forecast future demand and use big data to make effective decisions. The programme will equip the learner with analytical and professional skills to be data-driven managers with mastery over new tools, strategies, and calculated decision making.

The programme curriculum surpasses the highest of academic and quality standards, and will provide exemption from membership entry requirements and have access to the IoA resources and information services, professional development activities as well as careers advice and progression opportunities.

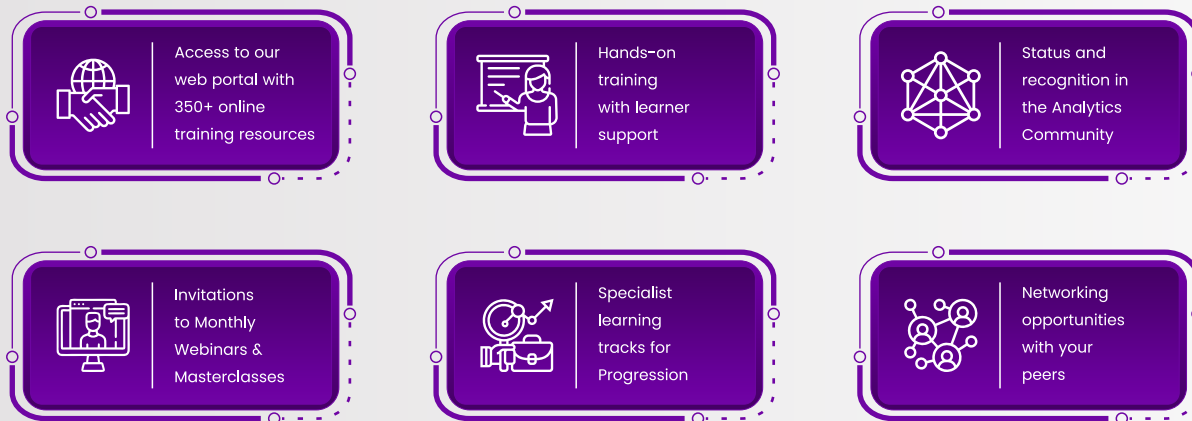

BCA with Data Analytics course at St. Anne's First Grade College for Women focuses on the conceptual knowledge in multiple disciplines of analytics. Students will be taught to apply analytic tools and techniques to solve business

Why Join the Institute of Analytics as a Student Member?

Analytics do incredible work. The skills they bring to the workforce are going to be even more in demand in the future. With new roles come new responsibilities and membership of the Institute of Analytics gives you a strong career partner in every step of the way. As a student member you can access the tools and support you need to achieve your career goals.

Benefits of IoA Membership

IoA Membership helps its members accelerate their careers and standing in the Data Analytics community. The IoA offer a range of membership grades and progression pathways to reflect different levels of education, experience and specialisations.

IoA Membership is annual and provides access to an extensive range of benefits. You can find out more about IoA Membership at ioaglobal.org.

Who can Become a Student Member of the Institute of Analytics?

To apply to be a student member of the Institute of Analytics you must be registered on either an Endorsed Course, Recognised Undergraduate or Recognised Postgraduate Programme.

Progression

Learners pursuing BCA with Data Analytics will be registered as Student Members and will progress as Associate Members upon the successful completion of the programme.
